

As Senior Environmental Scientist with the Southwest Florida Water Management District's Resource Evaluation Section, Mark's primary tasks consist of establishing lake and wetland minimum levels (MFL's) and assisting with lake and wetland recovery assessments in the Northern Tampa Bay region of the District. In addition, he is one of the District scientists working to establish the Central Florida Water Initiative (CFWI) wetlands and lakes monitoring network. Previously, Mark was an Environmental Scientist in the District's Regulatory program for 24 years. He holds a Bachelor of Science degree in Zoology and a Master of Science in Environmental Science and Policy, both from the University of South Florida. He is a member of the Florida Lake Management Society and the Society of Wetland Scientists and is a certified Professional Wetland Scientist.
