

Dr. Andrew Hood earned his Bachelors, Masters, and recently his PhD in Environmental Engineering from the University of Central Florida. His Thesis and Dissertation both focused stormwater treatment utilizing biosorption activated media. Amongst other awards, he received the Florida Stormwater Association Scholarship in 2015 and the ASCE Florida Section Graduate Student of the Year Award in 2019. Dr. Hood has worked at Geosyntec Consultants for over 5 years as a Water Resources Engineer and specializes in aquatic nutrient monitoring, BMP performance studies and analysis, and stormwater quality enhancement designs. One of his most unique projects was a nutrient mass flow analysis of Lake Conway which involved him SCUBA diving in the lake to install seepage meters and take seepage samples.
